EXPERIENCE

Outlier AI

Feb 2025 - Apr 2025

Role Front-End Developer

Remote

- Developed and refined frontend interface components used in the creation and validation of training datasets for AI models.
- Translated Figma designs into functional, user-friendly web pages and components.
- Collaborated with cross-functional teams to ensure smooth integration of design and functionality.

PROJECTS

Personal Portfolio Bhumit Tamboliya

April 2025

- Built a personal portfolio website to showcase projects, skills, and resume, offering a responsive and visually appealing user interface.
- Designed with HTML, CSS, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Implemented smooth scrolling, animated transitions, and a modular section layout for an interactive user experience.
- Organized content into reusable and maintainable components, improving scalability and ease of updates.
- Repository Link github.com/BhumitTamboliya/Personal_Portfolio

Online Jewellery Store Website

June 2025

- Developed a fully responsive e-commerce website for an online jewellery store with modern design and smooth user experience.
- Built using React, HTML, and Tailwind CSS, implementing a clean UI with advanced hover effects, transitions, and animations.
- Integrated PHP backend to manage dynamic content, product data, and contact form submissions.
- Designed modular components for product listings, image galleries, navigation, and user interactions.
- Focused on performance optimization, mobile responsiveness, and scalable code structure for future expansion.
